About

Senior Product & Brand Designer +10 years experience at the intersection of UX/UI, design systems, and creative direction. I bridge the gap between product strategy and visual storytelling to build scalable, intuitive digital experiences that strengthen brand identity. With experience across product teams, startups and agencies.

Work Experience

UX / Product Design Expert, AI Model Evaluation · Mercor, Remote *(Aug 2023 – Present · part-time)*

- Evaluate AI-generated interfaces against usability, visual hierarchy, accessibility and interaction-state criteria, identifying recurring failure patterns in model-generated UI and write rationale that improves model design output.

Senior Product & Brand Designer · ClickOut Media, Remote *(Jun 2023 – Mar 2026)*

- Led the creation and implementation of scalable design systems, defining UI patterns, tokens and component libraries across affiliate marketing products.
- Helped establish design processes and documentation, while leveraging AI tools to streamline design workflows and automate asset generation, aimed to improve cross-team collaboration, consistency and delivery speed.
- Design, iterate and improve a portfolio of digital platforms within the affiliate marketing and online product ecosystem with millions of users internationally.
- Collaborated with product and engineering teams to translate business goals and user needs into effective product solutions.
- Led the visual and brand direction of new products, defining design guidelines, design systems and assets for different channels.

Freelance Designer · UX/UI, Visual, Brand & Illustration *(2023 – Present · part-time)*

- Leading a variety of design projects: UX/UI design, branding, illustration, and digital campaigns.
- Developed brand identities, visual systems and digital assets aligned with product and marketing strategies, translating business goals into effective and scalable design solutions.

Product Designer · Airalo, Remote *(Nov 2022 – Mar 2023)*

- Translated user research and partnership requirements into intuitive wireframes, prototypes, and scalable interface components.
- Collaborated with the product director, principal product designer and engineering team on a B2B and B2B2C SaaS platform.

Senior Product Designer · Pickatale, Remote *(Feb 2022 – Oct 2022)*

- Worked with product and engineering teams to improve the Pickatale digital reading platform for children across mobile and web.
- Led the visual aspect of our brand and product, taking ownership of all decision making and creating guidelines for the whole product cycle, brand collateral and assets for all platforms.

- Collaborated in user research, user interviews, user story maps and slicing sessions, taking results and insights into the design of concepts, wireframes, prototypes and final products.
- Work on different products, such as the Pickatale app (iOS, Android), Pickatale's website and Pickatale's internal content creation and edition software tool.

Lead Designer, UX/UI & Digital · Brave Bison (formerly Greenlight Digital), London, UK *(Sept 2017 – Feb 2022)*

- Bringing ideas from concept to final deliverables on a wide range of creative projects, websites, and microsites, including the company's own channels and marketing strategies.
- Design and creation of brand & identity, visual language, user interfaces, components, iconography and a wide range of visual assets including social media and advertising.
- Work closely with product owners, UX/CRO consultants, marketing teams, copywriters, SEO specialists and development team to conduct tests and drive improvements and best results.
- Leading the design team, alongside with the creative director, scheduling and overseeing project completion, while mentoring other designers.
- Participated in discovery workshops, research and product concept development, while supporting in brainstorms, pitches and client presentations.

UI & Digital Designer · Verve Search, London, UK *(Feb 2016 – Sept 2017)*

- Design and creation of wireframes, user interfaces, visual design and illustrations, for multiple creative campaigns.
- Worked closely with the creative director, developers and researchers, to conduct and drive the user experience and interface of many digital projects.
